EVOD GLOBAL

ABOUT EVOD

At EVOD, we support projects from concept through execution—bridging design intent, manufacturing precision, and on-site performance. Our product portfolio is curated to meet the evolving demands of architects, developers, and builders seeking high-quality, build-ready solutions. We specialize in architectural systems and construction finishes that integrate seamlessly into residential, commercial, and mixed-use environments. From advanced window and door systems to custom-fabricated components and specialty hardware, every product we offer is selected with performance,

durability, and aesthetics in mind. Our role goes beyond supply. We collaborate closely with designers and project teams to ensure that each system is engineered correctly, manufactured to specification, and delivered ready for efficient installation. This integrated approach reduces friction, minimizes risk, and ensures the final result performs as intended—both visually and structurally. Explore our product categories below to discover solutions designed for modern architecture, precise execution, and long-term value. cover the different needs of our customers.

EVOD GLOBAL

At EVOD, we are building excellence every day. Through our modern facilities and the strict quality controls along the entire production line, we ensure the creation of high-quality and added-value products. Our continuous research and development lead to the offer of unique solutions with innovative features, which completely cover the different needs of our customers.

EVOD supplies and coordinates premium glass and aluminum architectural systems for luxury residential, multifamily, commercial, hospitality, and storefront projects. Our systems include minimal sliding glass walls, lift-and-slide doors, hinged windows, pivot doors, folding doors, curtain wall systems, storefront systems, entrance doors, and aluminum cladding solutions. EVOD supports clients from system selection and design coordination through shop drawings, fabrication, shipping, and project delivery.
