SLIDING GLASS

EVO Sliding glass is the perfect combination of isolation, safety and panoramic view. The new era has been begun in sliding systems with the SliderNext.

Embark on a new era in sliding systems with SliderNext. Offering versatility with options for standard or high thresholds, SliderNext is the ideal choice for restaurants, cafes, winter gardens, or balconies.

Key Highlights:

- ◆ Easy Cleaning
- ◆ Safety First
- ◆ Less is More
- ◆ Hidden Isolation

◆ Heat-Insulated Sliding System

Heat Insulated Sliding System raises the standards of balcony glazing systems. Sliding systems have been renewed in insulation, comfort and aesthetics and turn your balconies, winter gardens and restaurants into fantastic living areas.

It can be used both with heat-insulated glass and single glass. Insufficient insulation is solved by Sliding System, which provides full panoramic and elegant views without using any fixed corner profiles.

◆ No Barriers at The Corners

The side panel profile, developed specifically for L and U-shaped places, provides maximum panoramic and elegant view without the usage of any fixed corner profiles.

◆ Limitless Rail System with Maximum Width

The side panel profile, developed specifically for L and U-shaped places, provides maximum panoramic and elegant view without the usage of any fixed corner profiles.

◆ High-Level Insulation

Based on the features used for heat-insulated glass, the heat-insulated version of the SlideMaster provides 4.3 times more insulation than a single glass. Now your living area will be cooler in the summer and warmer in the winter.
